

Phys 111 Assignment Procedures

2005-06 Term 2

Assignment submissions will still be made online (due by noon on Fridays).

In addition:

Complete solutions to the seven problems (questions 1 through 7) of each assignment, written according to the problem-solving method outlined in the Survival Guide, are to be submitted immediately prior to each week's last lecture:

Section	Submission Time
Phys 111 (03)	10:00 a.m. THU
Phys 111 (01)	10:30 a.m. FRI
Phys 111 (02)	11:30 a.m. FRI

The written solutions are to be submitted in the hand-in slots immediately across the foyer from Rm 107 Physics (near the men's washroom).

The following information must be **clearly printed** in the top right-hand area of **each** page of your solutions:

Assignment xx
PHYS 111 SEC xx
Your Name
Your Student Number

One of your written solutions will be hand-marked, out of 3, in 1 mark increments.

The online answer submitted for this hand-marked problem will **not** be marked.

Each assignment will be worth a total of 12 marks. *If you submit your answers online but do not submit written solutions to the problems, then only questions 8 through 10 (the qualitative questions) will be marked. The maximum possible mark in this case will be 3 out of 12.*

Marked written solutions will be returned in the slots when the next week's solutions are being submitted.
