

League rules apply as per Midget League Handbook-Rules 2018 as in effect, with particular attention to the following:

All games are seven innings and there is **no time limit** on games. Extra innings will be played (International rules) if games end up tied after seven innings. A game that is called due to lack of light or weather will be considered complete if 5 innings have been played (4½ innings if Home team is in lead). An extra-inning game that is called due to lack of light or weather will be declared a tie. Semis and final games cannot end in a tie.

10-run mercy rule becomes effective after the Visiting team has batted five times. When the Home team scores the 10th run in its at-bat in any inning after 4½ innings have been played, the game is complete and the inning will not be finished.

A **game summary sheet** must be completed by the Home team for each game and signed by officials. As soon as possible after the end of the game, the Home team should email/text me (fcs3847@gmail.com or 6393178498) a picture of the game results sheet with the score and the number of innings at bat for each team, and the pitch count for each team.
