

FREE COACHES TRAINING

510 CYNTHIA ST SASKATOON

SEPTEMBER 30/NOVEMBER 16

Fetal Alcohol Spectrum Disorder can affect a child's ability to play and participate on a team. The FASD Network is holding free training sessions for coaches, team managers, physical educators, and instructors from any sport, age group or level. This 3 hour training will focus on the affects of the disability and provide strategies to help coaches meet the needs of every child on their team.

With the proper knowledge and supports you can change the life of children living with FASD and other disabilities by helping them learn new skills and become contributing members of their teams.
